## The Daylight Store

WHAT WE ARE DOING.

It will be to your interest to see our advertising every second day as we are to tell of something in each add. that you do not know about. The following will be new things that you are not familiar with.

## MORE KINDS OF WASH GOODS.

For a few days, until Spring seems a little nearer, we are to sell good 10c Gingham in all of the new plaids and stripes. They are for style fully up in every way to most expensive Gingham and the price for this short period will be 8c per yard.

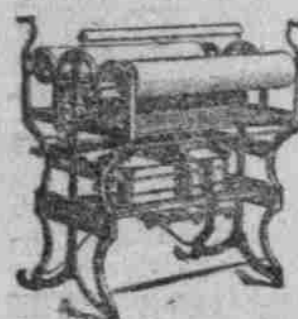

A full assortment of Madras in all of the plain colors. This cloth would be cheap at 10c and not very dear at 12 1-2c, now for a few days at 8c per yard.

New lot of Dimities and Figured Lawns in an assortment of styles. One of the best washing wash goods in our store. These can be seen in our window at 12 1-2c per yard.

The New Idea 10-cent Patterns are the best. They save in material and cut of pattern.

## WHAT IS THIS?

Some would call it a machine for laundering cuffs and collars, others would call it a machine for turning tin cans. This is our

SPOTLERS STEAM SPONGER, having three very powerful gas burners under a copper tank that generates steam and forces it through the cloth to be sponged and shrunk, then it passes under the finishers that

## SPOTLESS STEAM SPONGER.

gives it its natural, lifelike finish. The process is quite like a first-class machine used in modern laundries. The old process of sponging spoils the surface of almost all kinds of materials while this tends to rather improve the most delicate goods.

Velvet and silk muslins in the most delicate shades can be improved by this process, while other processes will surely ruin them.

It's a modern appliance that you will be glad to become acquainted with. Dressmakers will hail this class of work as a great convenience as well as a better way.

Goods bought at other stores will be sponged just as willingly as though bought at our store.

This Spotless Sponger is run every morning, charging only 5 cents per yard for its work.
